

Music

Aims

Pupil confidence is increased through self-expression and performance, as well as providing a sense of achievement.

Having the opportunity to play musical instruments helps pupils to develop self-discipline and improve memory.

Pupils demonstrate perseverance, persistence and discipline as they develop their music skills.

Music encourages teamwork,
helping build relationships by
providing pupils with shared
experiences.

A young boy with dark, curly hair is shown in profile, playing an acoustic guitar. He is wearing a light-colored, long-sleeved shirt. The background is a warm, orange-toned wall. Another person is partially visible in the background, also playing a guitar. The lighting is soft and warm, creating a cozy atmosphere.

As a universal language, music
enables children to break down
barriers and enables
communication.

Music helps pupils to appreciate and understand a wide range of traditions and cultures.

Through learning about different historical periods including genres, famous composers and musicians, pupils understand the importance of music's place in society.

Music allows pupils to express their feelings and ideas through composition and performance.
